Project of new single-family homes of exclusive design, whose objective is to offer an economically viable option within an increasingly inaccessible real estate market. The concept of the houses is born from the optimization between functionality, costs and design, resulting in 3 sizes that respond to personal and spatial needs.

OUTDOOR AREAS

The new homes are available in three sizes with the same aesthetics, quality and functionality. Depending on the needs of the future owner, there is a choice of living areas from 85m2 to 115m2, with two or three bedrooms and two versions of living space. In addition, numerous options of finishes, types of air conditioning, self-consumption with photovoltaic panels or home control with home automation are proposed. Therefore, it gives the opportunity to configure a product already designed, adaptable to your needs and with a set price.
