Gymnasium

We present an exclusive new development in Torre de la Horadada, located on the beachfront. These modern townhouses stand out for their elegant and functional design, with southeast orientation, ideal for enjoying the Mediterranean lifestyle. Located in an established residential area, the townhouses offer a perfect combination of comfort and aesthetics, with details carefully thought out to maximise the light and space inside. This development is just minutes away from the beautiful beaches of Torre de la Horadada and Mil Palmeras, as well as a wide range of restaurants, bars, shops and recreational activities.

OUTDOOR AREAS

The exterior design of these townhouses combines clean lines and cladding elements, creating a unique, modern and elegant aesthetic. Each home has a private patio and terrace, providing outdoor spaces to enjoy the Mediterranean climate all year round. In addition, the white metal structure and glass balustrade of the exterior staircases maintain brightness and visual spaciousness. The development includes a private swimming pool and a communal pool, ideal for relaxing and enjoying the peaceful and residential environment.

INDOOR AREAS

Inside, these townhouses stand out for their open and bright design. The main floor houses an integrated living room, dining room and kitchen, which are connected to the courtyard through sliding doors. Simplicity and functionality are key, with a white metal structure and glass balustrades complementing the staircase. This floor also includes a bedroom with access to the courtyard and a bathroom. Upstairs, a chill-out space with reading area and desk precedes the solarium. Two large bedrooms, one with a private terrace, and an elegant 10 m² bathroom complete this floor.
