It consists of 28 homes distributed in six independent two-storey buildings, each with only two homes per floor, offering privacy and serenity. This unique enclave combines sustainability and wellbeing with direct access to the seafront promenade and all essential services.

OUTDOOR AREAS

The exterior design blends perfectly with the Mediterranean environment, standing out for its modern and functional architecture. Each building is surrounded by gardens and green areas that complement the relaxing atmosphere. The ground floor flats have private patios with an average size of 30 m², while the penthouses offer spacious solariums with private swimming pool and pergola, ideal for enjoying the panoramic views and coastal climate.

INDOOR AREAS

The homes are available in 2 or 3 bedroom configurations and feature two bathrooms, fully fitted kitchens and high quality finishes. The materials have been carefully selected, with Porcelanosa porcelain tiles in floors, wall and bathroom finishes. The exterior enclosures, made by top quality brands such as Strugal, guarantee acoustic and thermal insulation. On the ground floor, the terraces connect directly with the urbanisation, while in the penthouses, the homes offer direct access to the solarium from the interior.

COMMON AREAS

The development has a well-kept communal area with gardens, a swimming pool for relaxing, and a paddle tennis court for sporting activities. In addition, the underground garage, accessible by lift, includes storage rooms and parking spaces allocated to each property, with additional options available. The privileged location ensures that residents have everything they need within walking distance: supermarkets, restaurants, the marina, medical centres, and excellent connections to the airport and the future AVE high speed train station.
